

SR 169 Agua Fria River Bridge

The Arizona Department of Transportation will remove the existing bridge over the Agua Fria River on State Route 169 and replace it with a new bridge. Work will begin in summer 2008 on the \$4.2 million project, which is scheduled for completion in fall 2009. Half of the new bridge will be built first and traffic will be transferred to the new bridge. Then the old bridge will be demolished and the other half of the new bridge will be constructed.
